MODERN PEARLS

It's a brave new pearl...

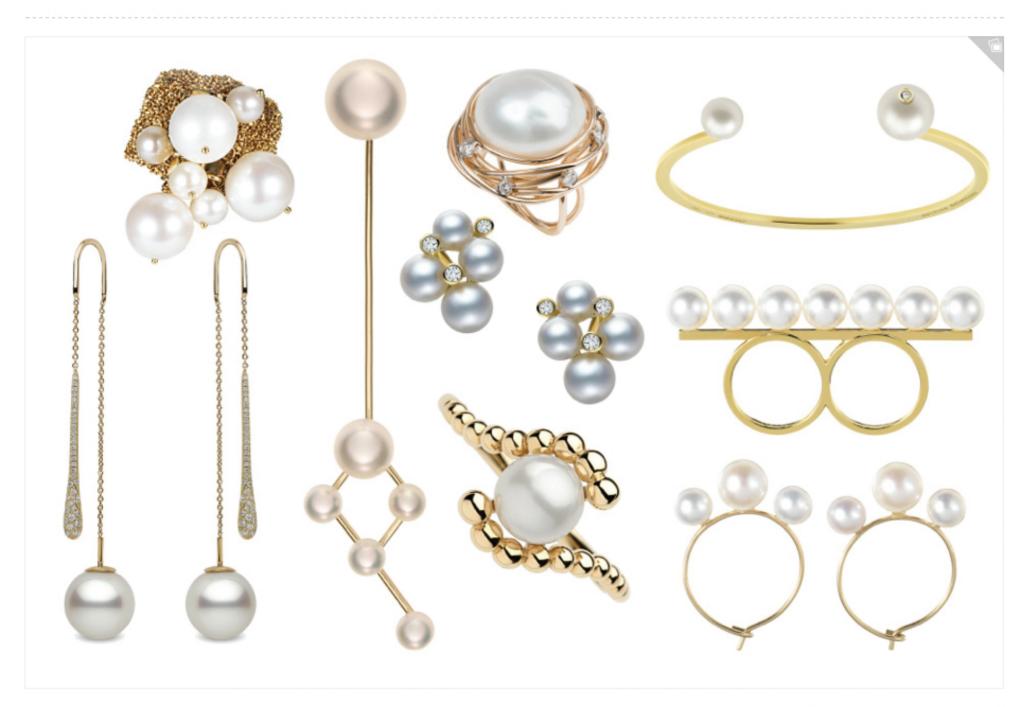

1st JUNE 2015

Pearls are staging a bold fashion comeback. And it's radical. It's not a 'just wear three strings of grey pearls with your polo neck' or a 'turn granny's pride-and-joy choker into a witty cuff comeback. No. It's an architected, conceptualised, modern, reinvented type of comeback. These sculptural pieces have the air of installations. The pearls are reclaiming considerable ground. Go forth. Explore. It's a brave new pearl.
